

WHAT IS MECHS?

The Mountain Education Charter High School is a non-traditional evening high school.

We have multiple locations across the North Georgia region, offering a full range of high school courses. All classes are in the evening and tuition is 100% free for students enrolled at MECHS full time.

All courses are mastery-based, meaning you cannot fail a course. There are no deadlines, so you can take as much or as little time as you need to successfully complete your coursework.

WHO ARE OUR students?

Students enroll at MECHS for a variety of reasons. Those who have dropped out of high school can enroll with MECHS and pick up right where they left off. Others may have gotten behind in school and need a way to catch up. Some have to work during the day to help support their families. A few of our students have children and need to take care of them during the day.

Whatever the reason, let Mountain Ed help you build a better future with a high school diploma.
